WORK BOOK - 2022

The new range of Soch Sanitaryware is all about re-inventing your world with design and strokes which are trending globally. The Finishes you choose will play a leading role in creating the look and feel of your dream bathroom. Give your bathspaces a new lease of life by composing a subtly luxurious look that's as unique, as you are. It gives your bathroom a unified look, which is also built to last.

SOCH[®]
Think your dreams...
SANITARYWARE

CHAIRMAN'S MESSAGE

Two Giants of the Tiles & Ceramic Industry have decided to come forward and join hands. Rudraksha Ceramic & Soch Ceramic has merged into one. Now customers will get the benefits and qualities of both the brands in one. India being a country where home décor is an Art, is the third largest consumer of Tiles & Sanitaryware on the World Map. In terms of domestic demand the country has the largest market for these. As per the demand of the Indian society Rudraksha & Soch Ceramic has its unique approach with keeping the essence of India alive. Since our incorporation in the year 1991 we do believe in giving quality products which gives a magical touch with maintaining the essence of home to your house. Since our existence, we are always on the path to learn and grab more to satisfy the needs of our customers. We believe in making our products and services more better day-by-day in order to fulfill the desire of our customers. Keeping customer's satisfaction at the apex, we are a leading corporation making the country beautiful with our efforts and hard work. In the coming years we believe to be a corporation leading the global platform.

Mr. Raj Kumar Khandelwal
(Chairman)

CHARACTERISTICS

All seats and covers are subjected to a weight test.

All seats and covers are subjected to an open/close test.

All WC pans are subjected to an odor leakage test.

Saves water with only 1 Ltr. of water consumption.

Soft Close Seats & Covers
Soft Closing and silent
Special technology

Requires very little space and provides easy bottom cleaning.

Anti Bacterial Glazed

Ultra White

Super Smooth Finish

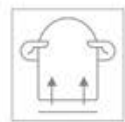

TECHNOLOGY

The removal of the RIM (traditional toilets' edge ring where water jets come out) gives a visual continuity among the surfaces and allows an easier and deeper cleaning, significantly reducing the quantity of detergents. So, Rimless Design is also the most attentive solution to environment safeguard.

MAINTENANCE

The Soch Sanitarywares have a smooth, impermeable and practically scratch-resistant surface, which is resistant to most of the acids and alkalis commonly encountered in the home.

For a daily care, you will usually only need water and a damp cloth. Tidemarks, grease and soap residues can be removed quickly and easily with a vinegar-based or bathroom cleaner.

Like any other part of your house, the bathroom can be made to look great if it is regularly taken care. Below are some basic tips that can help you to keep your bathroom glittering and fresh every day.

WASHBASIN

It needs to be washed with a mild detergent at least once a day. After washing, the basin must be wiped with a dry cloth to avoid water stains, especially on dark colours. Wash basins not cleaned for a long time can accumulate stains. To remove the stains, Diluted Hydrochloric Acid may be used.

CLOSETS

Use a plastic bristled brush with a plastic handle to scrub the toilet with a cleanser, at least once a day. After flushing the toilet, give it a "once over" with the brush to avoid minute discolouring.

In the case of closet, if there has been no maintenance over a long period of time, water deposits and discolouration are formed on the surface of areas that get wet. In such cases, these stains/marks can be removed with help of a solution of diluted hydrochloric acid. Do not use powder paste, thinner or dry cleaning liquids. To remove fine scratches, use Brasso or car rubbing compound and then polish cloth.

INTERNAL FITTINGS OF CISTERN

Accumulation of dust/sand coming through pipeline in the water on inlet and outlet rubber diaphragms may result in leakage of water. In case of such malfunctioning, all you have to do is open the inlet/outlet valve and clean the diaphragms or replace them. Use genuine spare parts only.
